EDUCATION

B.E.-Computer Science And Engineering

Dayananda Sagar College of Engineering
CGPA(Current)-9.88

2021 – Present

Bangalore

AISSCE

St. Gregorios Sr. Sec. School
Percentage-92.2

2017 – 2019

Udaipur

SKILLS

Programming Languages (C++,C, Javascript) | **Libraries/Frameworks** (React, Next , Node, Express, Tailwind CSS)

Tools / Platforms (Git, Github) | **Databases** (MongoDB, Firebase,SQL)

PROJECTS

StudyMate [🔗](#)

Tech Stack- React, Mongoddb, Node, Express, SocketIO, Flask

- Contributed to enhanced the learning experience by creating an interactive platform combining personalized learning, expert mentoring, tests and a vibrant learning community.
- Integrated machine learning for personalized student assessment, delivering tailored insights and recommendations for optimized learning paths with model accuracy of 96%.

CODEHUB [🔗](#)

Tech Stack- NextJS, Typescript, Tailwind CSS, Firebase,Recoil

- CodeHub is an innovative coding platform designed to provide users with a comprehensive and interactive environment for enhancing their coding skills and fostering a vibrant community of programmers.
- Engineered internal compiler and crafted custom test cases, ensuring a seamless programming experience. Implemented Static Site Generation ,achieving an 80% reduction in response time and leveraging local storage for users.

VOTENATION [🔗](#)

Tech Stack- React JS,CSS, NodeJS, MongoDB, Express

- Designed to bolster voter participation, particularly among youths and urban demographics, by enabling online fests, slot booking, QR code generation, and referral-based rewards which can lead to 50% user engagement.
- Recognized as a submission for the Elechthon 2023 Hackathon organized by the Election Commission of India, came in Top 3 teams aimed at enhancing civic engagement and democratic participation.

AMAZON CLONE [🔗](#)

Tech Stack- React JS, Redux, NodeJS, Firebase,MongoDB

- Developed a mirror version of the Amazon Shopping Site, offering seamless shopping and efficient product management functionalities.
- Facilitated seamless user experience by enabling product addition to the cart using Redux and added payment integration and dashboard to add products.

AWARDS

Special Mention at Elechthon 2023

Hackathon (Elechthon2023) conducted by Hack2Skill in collaboration with Election Commission of India

Completed Hacktober Fest 2022

Hacktoberfest is a month-long celebration of open-source projects, their maintainers, and the entire community of contributors. I found out bugs, fixed them and successfully pulled 6 merge requests.

Rating of 1684 on Leetcode and 3 Star on Codechef [🔗](#)

Solved over 800 problems on different coding platforms.
